ONLINE LEARNING | PROFESSIONAL DEVELOPMENT

PROFESSIONAL PATHWAYS FOR A COMMUNITY- CONNECTED PUBLIC HEALTH WORKFORCE

FUNDAMENTALS: KEY COMPETENCIES OF A COMMUNITY HEALTH WORKER

Online fundamentals courses cover the core competencies essential to Community Health Workers (CHWs), to bridge the gap between vulnerable communities and healthcare systems. Our curriculum is designed specifically for individuals exploring community healthcare advocacy for the first time, as well as those already established in the field and looking to build and enhance their skills.

CORE CURRICULUM INCLUDES:

- Community Health Worker 101
- Social Determinants of Health
- Care Coordination
- Motivational Interviewing
- Health Literacy
- Proactive Outreach
- Data Management
- Principles of Public Health
- Advocacy
- Capacity Building
- Community Assessment
- Interpersonal Relationships

HELUNA HEALTH SKILL BUILDERS

Heluna Health is leveraging decades of population health expertise to inspire, advance, and activate mission-driven professionals to improve health outcomes in the communities where they serve.

Heluna Health Skill Builders provides on-demand courses for key cohorts of the population health/social service workforce, starting with Community Health Workers (CHWs) in California.

A ROBUST PLATFORM

Heluna Health utilizes a learning management system to help identify gaps in knowledge, monitor progress, and produce user dashboards to ensure that learners get the full benefit of courses.

CLIENT-DRIVEN COURSE DEVELOPMENT

Custom courses can be developed for partner organizations and programs serving the broader public health and social services workforce.
